HOME AND CHINA AFFAIRS. PROM OUR OWN CORRESPONDENT. LONDON, 10th February. SIR RUTHERFORD ALGOUR AND THE OPIUM

13th ultimo before the Scolety of Arts on th subject of Opium is a most important document and one that is likely to cause a stir for some palliation of the traffic in opium, it is even more than a justification, and it rotorts' upon the leaders of the anti-opium agitation in an effective manner. Apart from the subject of opium the paper contains a fund of valuable information

Amongst the leaders of the anti-Opium move

The protext of these coolegisatical dignitaries for taking the matter in hand is the statement put forth by the missionaries in China, that their His grievanus was the teaching of false doctrine a gross toundge of 4,000 .- She is built on the Wong Nam Hin and Lin Nam Sing also gave by foreign missionaries .- Sir Rutherford accuses collular system, with sharply-defined lines, and avidence as to hearing the quarrel spoken of by the mandarins of promoting and encouraging gory as that enjoyed by the society for sending appointed a Board of Control. This arrange the circulation of this pamphlet, and he declares that the Tientsin massacre was the outcome of it.

With respect to that tragic affair he accuses the Pientsin authorities of being absolutely implicated. He gives the details in a most authenticated shape, and they form anything but pleasant reading. A difference is made between Protestant and Roman Catholic missionaries, greatly in favour of the former, but Sir Rutherford maintains that this difference is unknown to the Chinese generally. He is very severe upon the Freuch Roman Catholic missionaries, whose conduct he describes as rapacious and aggrossive, and he blames the French government in unmeasured terms for supporting their pretensions and maintaining their position, loss not speak from hearsay, but from an absolute

The tables are thus entirely turned upon the missionaries. The import first commenced about The complainent lives at Lyndhurst Tarrace, 1767, when about 200 chests were shipped from greated to about 1,000 obests annually and no more. The deduction which Sir Rutherford draw from these figures is this. That they prove the trade was not tolerated because of the fear the might of Great-Britain, as is alloged by the Anti-Opium league, inasmuch as they (the figures) display the fact that the increase was steady and gradually from the commencement of the trade until 1840, when the fear of Great Britain's might became developed and illustrated by Commissioner Lin's coup of imprisoning Her Ma-Tam Afoo, unemployed, was sentenced to three munity, and exterting from them, under the threat On the 20th, the complainant had landed from may be that the Mandarina tolerated the traffic pied junk near the Harbour Office, and was paying until it attained larger proportions than they

fastened with sealing wax; but there is no impression of a seat. The attention of boxholders is called to the necessity of carefully sealing such boxes with some recognisable seal, and of sending a chitbook or receipt with them. The emission of the latter precaution leaves a doubt as to whether the contents of the box ever reached the Post Office; the omission of the former, as to whether part of them might not have been ab-

stracted for the sake of the Postage Stamps.

TRA MUSTERS. Persons who send Musters of Tea through the Post in Tins are requested to have them made flat or square instead of round, as it is impossible to pack round time securely in the mail bags. It is believed that the tea will travel more safely in flat tins, which are not so liable

as round ones to be bulged in. 4 by 8 by 11 inches is suggested as a good size. The time should not have sharp corners. RATES OF POSTAGE. Post Cards, each Books, Patterns, and Commercial Papers, per 2 oz. Newspapers & Prices Current, each 2 Cents. Registration Do. with return receipt ...

The Post Office then undertakes the duty of obtaining notice of departure and despatching the correspondence. It is requested that the letters be posted if possible at least one day before the date fixed for sailing.
